EU level Reports

The Commission's Interim report on the comprehensive risk and safety assessments ("Stress Tests") was adopted on 24 November 2011 and is available through the link to the Europa website below:

http://ec.europa.eu/energy/nuclear/safety/stress_tests_en.htm

Now, as the final step of the peer review process, an ENSREG Summary Report, including the peer review reports, has been issued.

The European Commission presented the ENSREG report at the June 2012 European Council for information.

As part of the [ENSREG Action Plan](#) regarding the follow-up of the peer review of the stress tests performed on European nuclear power plants ENSREG prepared a [compilation of stress test peer review recommendations and suggestions](#) to assist the preparation or review of national action plans by national regulators.

The Communication from the Commission to the Council and the European Parliament on the comprehensive risk and safety assessments ("stress tests") of nuclear power plants in the European Union and related activities, and the Commission Staff Working Document - Technical summary on the implementation of the stress tests was adopted on 4th October 2012:

[Communication on the comprehensive risk and safety assessments \("stress tests"\) of nuclear power plants in the EU and related activities COM/2012/571](#)

[Technical summary on the implementation of comprehensive risk and safety assessments of nuclear power plants in the EU SWD/2012/287 final 2](#)

Link to the National Action Plan Workshop summary report, of May 2013.
