

---

## I. The TPR LTO was insufficient

- 1) Criteria for acceptable risk level
- 2) Technical, managerial, operational, governance conditions
- 3) Implementation: upgrades, adaptations, regulations, license change

Potential impacts: more than technique

Risk = chance x impact

Impact information from EIA – **Espoo, EU EIA Directive, Aarhus**

---

## II. Ongoing regulatory independence concerns

Art. 5.2 Nuclear Safety Directive

Conflicts between government policy support and regulatory tasks
